

Supply Base Manager

Description of the function

In the role of Supply Base Manager you are responsible that our suppliers meet customer requirements and deliver products on-spec and on-time. Besides that you are responsible for developing and implementing European supply chain plans on a tactical level.

You will report directly to the Global Supply Manager.

A week in working life

- Discuss delivery performance with our partner supplier (for instance in Central Europe)
- Request / review quotes, packaging, quality and supply chain documents
- Compose management information overviews
- Analyze operational issues
- Initiate and implement your ideas to contribute added value to our supply chain

Qualities

- Professional, consistent and accurate way of working
- Clear in communication
- Tactically strong
- Getting the job done
- Pleasant to work with and team-player
- Know-how of supply chain and/or packaging is a plus, not a must

About Paxpring

Paxpring adds value for customers by improving their packaging and packaging supply chain. Amongst others our customers are RIM (BlackBerry), Microsoft, Cisco (Linksys), Philips, TomTom, OrthoPharma, Bugaboo and KLM.

Paxpring's position in the market is between the demanding customer on one side and the capable supplier on the other. Paxpring is completely independent and therefore able to focus exclusively on the best solution for the customer.

We stand for what we say and do. We are honest and straight forward people that think and explore without borders.

Working at Paxpring is inspiring because of the multinational customers & partners we work with, because of our small team, our entrepreneurial style and our authentic river-side HQ in the very centre of old-Weesp. Paxpring offers flexible working hours in an attractive working environment and good working conditions.

Since the start-up in 2006 Paxpring has grown rapidly and will continue to grow steadily. Paxpring has been profitable since it's inception.
